THURSDAY, June 21-P. M.

The renewed activity of the stock market continued to-day with a buoyant feeling. With very few ex-ceptions the whole list shows an advance of yesterday's es, with only a moderate resistance from the bears, The movement, however, appears to be for the present mostly confined to street operations, but sustained pri-ces will soon bring in the usual assistance from outside speculators. The accounts by the Asia are very favor in the future of Western railroads. Illinois Central and Erie were firmer under the advices of an improve ment in the London market, where the last sale of Illinois Central was at 39 † cent discount, against 42 & cent by the previous steamer. This advance was in response to higher quotations from this side. The market opened here at 64, but the stock coming out freely, it fell off to 63}. The Board have been con-Hudson River continues to improve, and sold up to 48). Central, without special activity, was firm, and closed at 82 bid. In the Western Shares; there was a strong disposition shown to buy, with a general im provement of 1 to 11 4 cent. Galena was an x eption, and was a trifle lower than yesterday. but the business was limited in consequence of the moderate amount of stocks offering. The Bond market is well sustained, and the business was well distributed. The whole list had an upward tendency. Nearly all the railroad bonds were higher. Erie Second Mortgage sold at 95, Fourth at 67, Fifth at 621, 1871 at 494. Hudson River Thirds were 914, and Seconds 1004. Michigan Southern Second Mortgage sold at 48, and were afterward 484 bid, and U. S. Fives, 1874, sold at 1041, and a private sale of 1865s was made at 103. The closing prices were: Virginia 6s, 932 294; Missouri 6s, 842 @842; Canton Company. 201 @212; Cumberland Coal, 121 @13; Pacific Mail, 90 @901; New-York Central Railroad, 82@821; Erie Railroad 19] @ 19]; Hudson River Railroad, 48@48]; Harlem Railroad, 12 2127; Harlem Railroad Preferred, 39; 2 391; Reading Railroad, 41 & 41; Michigan Central and 491 a 491; Michigan Southern and Northern Indiana Railroad, 131@131; Michigan Southern and Northern Indiana Guaranteed, 27 | #27 |; Panama Railroad, 132 | #2133; Illinois Central Railroad, 62 | # 3: Galena and Chica o Railroad, 612 @ 612; Cleve land and Toledo Railroad, 301@31; Chicago and Rock Island Railroad, 69 @69; Chicago, Burlington and Quincy Railroad, 72; 273; Illinois Central Railroad

The gold shipment of Saturday will probably read a million and a half, of which a quarter of a million will be silver received here from the South. The recent shipments of gold have had no effect upon the money market. Call loans are freely offered at 4 05 \$ cent, and the supply of capital appears to be increasing, partly from the piling up of funds here for the payment of July dividends. Loans running at 4; event have been voluntarily put down to 4 & cent to-day, and we hear of one deposit of \$200,000 in a Trust Company at 3 P cent. Paper without quotable change has not quite as free currency as last week, especially at long dates. Some banks are taking lists at 5 P cent, but we hear of no more transactions at 4! P cent. The balance of trade is in our favor with the neighboring cities, but gold is only arriving from Boston. To-day and to-merrow the receipts will aggregate \$200,000. Treasury notes are in good demand and a sale of \$75,000 overdue 5 P cents was made at par Unless Congress passes the loan bill or extends the power to reissue these notes, the Secretary will probably make an issue during the coming week of the amount, about a million, which has been paid in for duties. The Pacific Mail Co, has paid dividends to-day on 34 shares of stock received from England. This makes an aggregate of 41,108 shares. The Broadway Bank has declared a half-yearly dividend of 5 % cent. The

Harmony Fire and Marine Insurance Co., a semi-annual dividend of 5 P cent, payable on the 2d of July Long Island Insurance Co., a semi-annual dividend of 10 & cent, payable on the 2d of July. The Chemical Bank has declared a quarterly dividend of 6 V cent, payable 2d July. The Neptune Insurance Co., 31 V cent, payable 2d July.

The New-York Central Company advertise to pay off \$100,000 New-York State 5] to centa, originally issued in aid of the Auburn and Rochester link of the now consolidated line. The interest is made to cease on 1st August, when the certificates will be redeemed at the bank of Duncan, Sherman & Co. It is stated that some large foreign holders of Michigan Southern First Mortgages have agreed to exchange for Sinking Funds at par, the exchange to be made in Europe, at the cost of the Company. The stockholders' meeting of the Cleveland and Toledo Railroad was held at Cleveland yesterday. The net earnings for the year are over \$76,000 above the running expenses, and interest on the bonds and floating debt. The Directors elected were as follows; J. B. Waring, Joseph Ly man, Cleveland; Jno. Gardiner Spragoe, Huron; W. M. Vermilye, G. T. Oliphant, Joseph Benjamin, New-York; H. N. Randall, New-London. All the old board of officers were reclected. Letters from Chicago, from the Land Commissioner of the Illinois Cen-tral, and four others engaged in selling lands, indicate the commencement of emigration to Illinois. It is said that more agricultural lands have changed hands this Spring than for two years previous. The movement is toward Southern Illinois, where Winter Wheat is more certain, and the mild Winters are favorable to stock farming.

The private letters by the Asia express apprehension

in regard to the harvest, in consequence of the continuance of wet and unfavorable weather, and quite an advance in the breadstuff market. The result here has been an active market in Flour and cereals, with an advance of 3 to 4c. in Wheat, 1 to 2c. in Corn, and 15 to 20c. in Flour. There are large applications for freights, including some for Havre, which is a new feature. It looks now as if the West would have full and profitable demand for all its surplus grain next Fall, pouring wealth into the laps of the farmers and giving a large business to the railroads. The financial advices per steamer Asia are some

what discrepant. The Times's city article reports that money in the Stock Exchange was in rather full supply at 31 P cent, and in the discount market the minimum rate was 31, and the applications at Bank were small. Other authorities report money as being in ac-tive demand at 4 \$\pi\$ cent; and that the funds were flat owing to a decline on the Paris Bourse, and Consols were quoted an | lower. The cotton market continued in the same irregular and depressed state; and a declining price is reported. Extensive sales had been made in foreign wheat at full prices, and holders were expecting an advance. The weather had been unsettled during the week, much rain and cold high winds having generally prevailed; and while the crops is general are reported in good condition, it would require warm sunshine to retrieve the injury cereals have sus tained from the rains and gales. American Securities

were better. Satterthwaite says:

Business in American Securities continues to be limited, the demand being chiefly confined to States' stocks and the best class of Railroad bonds. Eris shares have been taken from 19 to 20, by parties who are looking for higher prices consequent on the much improved condition of the undertaking; the opening of the first forty miles of railroad of the Atlantia and Great Western from the Junction with the Erie is regarded favorably. For New-York Central shares, notwithstanding the road is doing so well, there is no inquiry, though the bonds are steadily taken off the market for investment.

The European Times says:

"Monetary and Commercial affairs at the present moment are without activity. Trade in the manufacturing districts is hardly so good as it was lately, and stocks are accumulating, but this is not unusual at this period of the year. Transactions in produce are on a limited scale, and prices are not sustained. The Funds have been inanimate since our last, the business done having been small, and the demands for accommodation for all purposes at the Bank and in Lombard-street have fallen off. There has been no disturbing political intelligence from the Continent; nevertheless there is a prevailing feeling of uncertainty that must have an influence in prejudicing Monetary and Commercial transactions, and doubtless to this cause is owing in a great measure the dishence in prejudicing Monetary and Commercial transactions, and doubtless to this cause is owing in a great measure the dishence in prejudicing Monetary and Commercial transactions, and doubtless to this cause is owing in a great measure the dishences at present pervading all our markets.

"Pending the 4th of the mouth there is always more demand for accommodation to meet the requirements of that day; and at the opening of the present month the discount market showed much settivity at the Bank's minimum. Since the 4th the demand has aboated, but the inquiry is still sufficiently active to encourage one or two of the leading discount houses not to take business below 3/24 P cent. In other cases the terms are rather lower. At the Bank the applications are decilining than otherwise.

"The report of the London Stock Exchange Committee outplain of the conduct of the Directors of the Union Bank in publishing a statement—bastily adapted from Pollinger's confession—that the entire amount embezzied had been lost in speculations on the Stock Exchange—the fact, to work the fact being that not more than \$120,000, 257,000 was landed over to an outsider named Nathan (now dead); while there is very sufficient evidence that the delinquent and the ha

Thompson's Reporter says of land warrants: Thompson's Reporter cays of land warrants:

"Land warrants were in demand at 30% 55. If are up to
the chaesay morning, when the telegraph announced the union
of the Senate and floure on a Homestead bill by a large majority
in both Homes. The bill is not a Homestead measure, but a
reduction in the price of land to 25. If are, and to 50. If are
to preemptors. This stops sales for the present."
In the St. Louis Circuit Court an important decision
was rendered on Saturday morning by Judge Breckin-

ridge in the case of the Boatman's Savings Institution agt, the State Bank of Missouri. The Court held that he State Bank had the right to pay the five-dollar bills in silver, treating each as a separate demand. Relative to bills of a higher denomination the Court held that under the act of Congress of 1853, the State Bank that under the act of Congress of 1883, the Mate Bank could not tender silver coin, and accordingly decided for the plaintiff. The amount presented for redemption was \$54 840, of which sum \$1,190 was in five-dollar bills. The remaining \$53,850 was in large bills. The Court decided that in not redeeming these bills in gold the default was made, and eatitled the plaintiff to 20 if cent per annum damages, till paid, for its refusal to pay.

We report a dull week in the Dry Goods trade among

the commission as well as the jobbing houses, and a de-termination on the part of the latter to keep out of the market until the season commences. The jobbers dur-ing the past two months have had an unsatisfactory business, having had more difficulty in clearing out their surplus stocks than any previous season since 1857, buyers taking only that class of goods which their immediate necessities compelled—low prices offering no temptation. Only that class of jobbers who have bought their stocks from week to week will claim the Spring of 1860 as a good season. These incidents, to-gether with the prospect of a late Fall trade, lead us not to anticipate much movement in the general Dry Goods trade before the last of next month. We hear, however, of sales to-close out stocks of job lots of low

below cost of production, and unless the market rallies the production must in a great measure cease. Black Satinetts, however, are an exception, and are scarce. quite up to production, and as this is near the season for large sales, no decline is expected. Gray Twills are in abundance, and unless the Califorpia market, which is the great consumer of this fabric, comes to our relief a de-cline must be submitted to. The greatest loss of the season has been on Kentneky Jeans and Cotton des. We hear of sales of heavy Twilled Goods at ruinous prices, and good plain goods have been sold at 11 | a 12]c. P yard, a reduction of more than 25 P cent on early prices. Sales of Philadelphia Cottonades have early prices. Sales of 1 management and the been made at a decline of 5 to 6c. P yard; and the stock on band is still oppressive. The leading styles of Brown and Bleached goods are sold in advance of firm, and no accumulation is apparent. Some large sales of Canton Flannels have been made for future delivery—the prices are generally quite firm. The makers of Heavy Shirting Stripes and Ticks are taking the advantage of the absence of some popular styles like the Pembertons, and well sold up at full prices. Medium goods are accumulating somewhat, and we hear of some very low sales, which however cannot be duplicated. Denims of medium grades are lower, relatively, than any other class of colored goods while the lighter qualities have been sold at higher prices, a new foreign market being just opened for that class of goods. Printing cloths are brisk and no stock is observed in any market-the deliveries are about 100,000 pieces weekly on contracts made early; but great apprehension is felt that this supply will be greatly reduced during the next few weeks, if not for months, as the water is lower in the manufacturing districts than known at any previous season; and the production will be greatly reduced if not eneirely suspended in some sections.
We annex our usual summary of exports of Do mestic Cottons, showing that the heavy movement chronicled during the past number of months, continues without abatement. The shipments are chiefly to China and the South American coast; and a noticeable feature, as showing the monopoly which this market holds in this department of commerce, is shown in the shipment of 5,000 packages from this port, when the shipments from Boston were merely nominal. Toe whole shipments for the season show a shipment from Boston of about 23,000 packages, against 60,000 pack-

LAW INTELLIGENCE

DECISION ON THE SUNDAY LAW ADVERSE TO THE THEATER PROPRIETORS.

The Managers of the Society for the Reformation of Juveni o Delinquents in the City of New York agt. Otto Hoym and Edward W. F. Harmann.

This case came up to-day on a motion of plaintiffs, that the defendants be fined for contempt of Court, in disobeying an injunction enjoining them to close their place of ammentant to Sunday. Judge Homey delivered the following opinion:

Boxes J.—On the 2d day of June, 1803, an injunction order was made in this action, and duly served on the detendant Harmann, "restraining and enjoining the defendants or their agents from opening the New York Stadt Theater for exhibiting the start-gal performances therein, until a license shall be obtained there-

junction order, and was guilty of the contempt with wance he charged.

Fifth: That for such contempt the said defendant, Harmann, pay a fine of \$250, and be committed to the common jail of the County of New-York, until such fine be paid.

CONJUGAL DISPUTES.

In re the petition of Jennys C. Battersby.

This was one of those cases of family difficulties which are unhappily of frequent occurrence in our courts. The petitioner in this case set forth that his five children were illerally restrained by his wife, Julia Battersby, whe would not allow him to see them of educate them, and who debarred him to the factor. Mrs. Julia Battersby, the

wife, appeared in court with the children, who were all girls, the eldest being about fifteen, and the youngest four years of age. The lady denied any attempt at restraint toward the children, and averred that the parties separated about a year ago, in consequence of the ill treatment of the respondent by the petitioner. The counsel for the petitioner asked time to traverse this return, which he said contained new matter to them, and the Court granted a postponement till Wednesday next.

C. Shaefer for petitioner: S. B. Garvin for respondent.

Efter Justice Leonard.

The People and Taylorand Brennan agt. The Mayor, &c. The motion to set askde the judgments in this case came on for argument this morning. Judge Leonard stated that he had taken up the calendar for a few days only to oblige Judge Ingraham, and that he had already cases on hand which would engage his time for the next two weeks: consequently the case must be postponed till Tuesday next, when Judge Ingraham would be on the bench.

Ex-Judge Edmonds requested that Wednesday should be the

the bench.

Ex. Judge Edmonds requested that Wednesday should be the day, as by that time the Attorney-General could be in Court, and could hear on the argument.

This proposition was accorded to, and the Court adjourned till Wednesday next.

This proposition was accoded to, and the Court attorned till Wednesday next.

THE GRADING OF FOURTH AVENUE.

James Lenox agt the Mayor.

The plaintiff is owner of several lots situated on Fourth avenue, between Sixty-eighth and Seventy-fourth streets. He obtained from Justice Bonney a temporary injunction restraining the Corporation from proceeding to grade the street, on the ground that the measure was illegal.

The Corporation Counsel moved, before Justice Peckham, to dissolve the injunction on the ground that the grade was legally ordered to be altered, and that the same was ordered by the Corporation in its legislative expectity. The Justice granted the motion with \$10 costs.

AUTHENTIC NEWS FROM JAPAN. From The Hartford Courant.

In these times of alarming rumors from Japan, calculated to excite apprehensions of the most unpleasant kind, especially in the minds of those who have friends residing there, any well authenticated information of a favorable kind from that region seems so desirable that I take the liberty of sending you for publishing that I take the liberty of sending you for publishing the following extract from a letter to-day received by the overland mail via San Francisco, from my brother-in-law, the Rev. S. R. Brown—one of the missionaries of the Reformed Dutch Church of New-York, sow residence at Kanagawa. Mr. Brown, who has been at

law, the Rev. S. R. Brown—one of the missionaries of the Reformed Dutch Church of New-York, now residing at Kanagawa. Mr. Brown, who has been at Kanagawa with his family and other members of his party for six or eight months past, writes from that place thus, under date of April 14, 1869:

"You will hear through the papers, probably, of the late murders at Yokuhama. Two Dutch sea captains were brustly butchered by some unknown Japanese in the most public street of Yokuhama, just after dark, on the 26th of February last. It was a fearful piece of butchery. They were quiet, inoffensive men, just going out for a stroll in the street previous to putting off to their vessels. One of them was sixty years old, and left a family consisting of a wife and five children in Holland. Since that, on the 26th of March, a murderous assault was made on the Prince Regeat, as he was proceeding with his retime from his ewa to the Emperor's palace. Several of the Prince's men were cut down on the spot by an attacking party of twenty-one men, and three of their own number were killed likewise by the Prince's followers. Shots were fired into the Regeat's norimor, and he was wounded in two places; but not mortally. In consequence o this affair, and of other signs of a conspiracy on the part of one of the prince of the royal blood, called the Prince of Mito, against the present Horverament, occasioned by the recent changes in the foreign policy of the country, the Government has redoubled its vigilance to put a stop to the assasination of foreigners as well as to protect itself against internal enemies. Last week I spent ten days at Yeddo, at Mr. Harris's, by his invitation, going up as his chaplain, and when I was there he had a guard of 20 Yakusyings or armed officers at his house. Since the attack on the Regent, his guard has been doubled, as well as that at all the foreign legations. Beside this, we are honored here with a guard at every foreign house except one.

we are honored here with a guard at every foreign house except one.

"The Government has put up a guard-house at our front gate, and keeps five Yakunyings there night and day. When we go out at any time, we can have an armed officer to accompany us if we choose. A new official from Yeddo, with his suite, has pass us a visit to-day, to see if our defenses are all right. Hoping that the above may have the effect to allay the fears of some of your readers who have friends residing at Janan. I am. Yours respectfully.

FATAL RAILROAD ACCIDENT.—On Monday has a meiancholy and fatal accident occurred to Mr. S. G. Senfley, a gentleman reviding at Claverick, Columbia County, who was struck on the head while passing a bridge on the Hodesp and Boston Railroad. The particulars are as follows: Mr. Bentley, with two or three friends, were on their way from Hadson to Claverick, when Mr. B. took a famy to climb one of the freight cars to obtain a better view of the country, when, as the train was passing under Ludlow's bridge, the unfortunate cathemar's head was nearly severed from his body by coming in counts with it. He lived only a few moments. Mr. Bentley was Steward of the Hudson River Institute, and was highly re-ported.
